TERMS OF BUSINESS:

ORDERING. Mention clearly Catalogue Number and Key (if necessary).

TRADE ACCOUNTS are opened upon receipt of references, including a Bank Reference or its equivalent.
Customers not having Accounts are requested to send Cash with Order.

CONVEYANCE. Unless specially instructed all goods up to 11 lbs. will be sent by Parcel Post, and by Passenger Train up to 2 qrs., above this weight by Goods.
SPECIAL NOTE.—All Parcels sent by post are at Customer's risk.

FOREIGN AND COLONIAL TRADE ORDERS must be accompanied by cash or remittance for at least one-third of the invoice value unless account is opened; under such circumstances the order will be shipped, and balance collected on the delivery (or indent through Shipper). All Foreign Orders sent f.o.b. Other Overseas Orders strictly Cash.

REMITTANCES. Cheques, Postal and Money Orders to be crossed and made payable to Arthur O. Windsor. No receipt valid unless on special Printed Form.

BANKERS: National Provincial Bank Limited, Birmingham.

DAMAGED GOODS AND RETURNS. In case of damage or loss immediate application should be made to the Carriers, and a claim sent in for the amount. Packing should be kept for inspection. Boxes and Mats charged at cost price and credited if returned in good condition within seven days, carriage paid. In case of goods that have been shipped arriving damaged or heated, a "Lloyds Survey Report" should be immediately obtained.

EXPORT. As we are continually exporting to every part of the world, we are able to transact this class of business in a most efficient manner, many of our goods being specially designed for "nesting" and packing into a small space, one within the other.

EXCEPTIONAL TRADE FACILITIES for Overseas Credit.

THE Windsor WHIRLE DANCE BANJOS

EMINENT BROADCASTING ARTISTES.

MR. JOHN PIDOUX is the famous artiste with a life-long experience of Banjo, Guitar, etc., having played at times for the most prominent musicians of the day, including Sir Henry Wood, Sir Thomas Beecham's Opera Company, Dame Ethel Smythe, Dr. Adrian Boult, the late Sir Herbert Beerbohm Tree, also the Birmingham Repertory Company, London and Birmingham Banjo Festivals, The Zonophone Co., Pathé Co., Polyphon Co., etc., etc.; and for years carried on most successful Dance Bands with important engagements at principal Hotels, Dances, Masonic gatherings, and Hunt Balls throughout the Midlands.

Mr. John Pidoux is recognised as one of our greatest Banjo players, and an Expert on the varied members of the modern fretted instrument family.

See pages 5, 6 and 7, for full Particulars of these Banjos.

Studio: Scotchers' Chambers, 59 Corporation Street, Birmingham

THE BEND, MERE GREEN ROAD.
Sutton Coldfield, Jan. 31 1931

Messrs. B.O. Windsor, Newhall St.

Dear Sir

Undoubtedly the greatest advance in banjo construction yet made, is embodied in your "Patented Artiste Model" (9 5/8" dia. Vellum) instrument.

I am using this banjo with conspicuous success.

Yours faithfully
John Pidoux

Testimonial reproduced by kind permission.

EMINENT BROADCASTING ARTISTE.

THE Windsor WHIRLE DANCE BANJOS

The New Windsor Patent Zither Banjo

for High-class Dance Bands, Broadcasting and Solo Playing.

This new method of construction, which has been fully patented, doubles the volume of tone and still retains the wonderful sweetness of the zither.

ARTISTE MODEL No. 2

PATENT No. 308,900.

THE PATENT BANJO HAS PROVED A HUGE SUCCESS SINCE ITS INVENTION.

The timber for these instruments has been seasoning in our own factory for 10 or 15 years. The Neck of the De Luxe is made with real Bahia Rosewood, the Rim being of Rock Maple overlaid on the exterior with Bahia Rosewood. The De Luxe Model is handsomely inlaid all round edges with Tulip wood. The Necks of all the models except No. 4 are dexterously hollowed out from Nut to Rim, rendering every part of the Banjo susceptible to the vibration of the sound waves. The Fingerboards are handsomely inlaid with Pearl Inlays, being slotted through to the cavity in the Neck. The Resonator forming the Patent tone chamber as illustration.

DE LUXE MODEL (the finest Banjo ever made), fitted with the finest quality Machine Head, Steel Actions, with Pearl Buttons; all woodwork magnificently cellulose polished; all metal fittings of the very best quality, specially cast, covered with 22-carat gold, and artistically chased by expert workmen and designers. Vellum diameter 9⅝in.
Code Word: MAJESTY **£50 0 0**

ARTISTE MODEL No. 1 (De Luxe Model No. 4), built with Windsor's famous hollow neck in Walnut, Body and Patent tone chamber in Rosewood, the whole finished in Cellulose, all fittings Chromium Plated, Ebony Fingerboard, handsomely inlaid, best Machine Heads. Vellum diameter 9⅝in.
Code Word: HIGHNESS **£26 0 0**

ARTISTE MODEL No. 2, built with famous hollow neck in Walnut, Rosewood Body and Tone Chamber, exactly as illustration, Cellulose finish and Chromium Plated Fittings, a very popular model. Vellum diameter 9⅝in.
Code Word: REGENT **£18 18 0**

ARTISTE MODEL No. 4, Rosewood Body, Walnut Neck (solid), artistically inlaid Ebony Fingerboard, Rosewood back, Cellulose and Chromium finish. Vellum diameter 8¾in.
Code Word: EXCELLENCY **£13 10 0**

Plywood, Rexine Covered Case for above, velvet lined, **£2 16 0**

Canvas Case Covers **25/-**. Swansdown lined, **£2 4 0**

The above models have been used with enormous success by leading Broadcasting, Concert and Band Artistes.

THE Windsor WHIRLE DANCE BANJOS

The "POPULAR" Models

THE series of "Popular" Model New Windsor Zither Banjos consists of two Models; the No. 5 being built with the round shoulders, and the No. 7 being the first Model of the square shoulder instruments. Both Banjos are complete full size concert instruments, and are thoroughly recommended for concert work, having 22 Frets, 3 octaves, selected Vellum, fine quality machine, Ebony Fingerboard artistically inlaid with mother-o'-pearl. Solid cast Chromium Plated parts, brass rims, Cellulose finish. Vellum diameter 8¾in.

No. 5. Round Shoulders, Walnut Neck, Rosewood Body with white line, best quality fittings, heavily Chrome Plated. Windsor Patent Bezel, Tailpiece and Pressure Bar. Best quality machines, finest selected Vellum. A very good professional instrument.

Code Word: CHANCELLOR. **£8 8 0**

12in. Model (9⅝in. Vellum).
Code Word: BUTLER **£10 10 0**

No. 7. Fitted with Walnut Neck, Rosewood Body, Square Junction between Rim and Neck, otherwise exactly as illustration with the exception of the square shoulders. Best quality fittings. Full concert size instrument.

Code Word: LORD. **£5 15 0**

12in. Model (9⅝in. Vellum).
Code Word: NURSE. **£7 10 0**

Attention is drawn to the Tailpiece and Pressure Bar, which is used upon the Windsor Banjos, the one part is entirely independent of the other.

With other tailpieces, when the 1st or 2nd string breaks, the tailpiece swings and throws the 4th and 5th strings out of tune; this is impossible if a Windsor is used, for every string is entirely independent of the others.

Tenor Banjos as above can be supplied at same prices.

POPULAR MODEL No. 5.

THE Windsor WHIRLE DANCE BANJOS

"IDEAL" MODELS

No. 8. Built with Rosewood Body, lined with White Holly, Open Bezel, Walnut Neck, Ebony Fingerboard, inlaid positions.

THE Windsor
WHIRLE DANCE BANJOS

No. 1

LADIES' BANJOS

THE series of Ladies' New Windsor Zither Banjos consists of four models. These instruments are specially designed, of the light and dainty nature, elegant in appearance, and full toned, suitable for the use of a Lady. Each instrument is built with a full compass of frets being placed a little closer together so as to make the fingering easier. The Neck is specially shaped for a small hand. The heavy parts of the metal work being made in light metal, making the instrument much lighter and not affecting the tone and carrying power.

No. 1. Rosewood Body, beautifully inlaid by hand with Pearl, real Marquetrie floral designs, Rosewood Neck, inlaid, best Vellum, special light metal parts.

Code Word: LADY **£13 0 0**

No. 2. Rosewood Body, Neck handsomely inlaid, Rim inlaid all round, best quality machine.

Code Word: LADYSHIP **£9 9 0**

No. 3. Rosewood Body, Walnut Neck, handsomely inlaid fingerboard.

Code Word: LADYLIKE **£4 15 0**

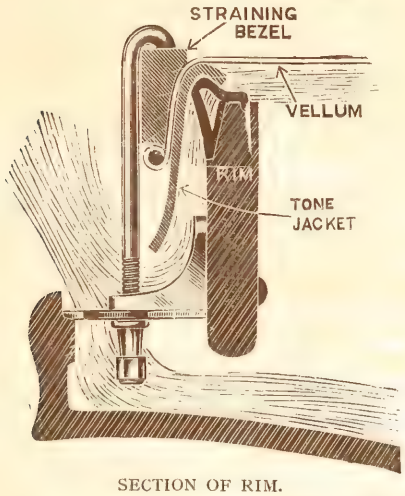
No. 4. Walnut Neck, Ebonised Rim, powerful tone, good Vellum and Machine Head. A handsome Banjo.

Code Word: DAME **£3 12 6**

Every Model is Chromium Plated and finished in Cellulose.

Suitable Cases **2 Gns. & 17/6.**

THE Windsor WHIRLE DANCE BANJOS



SECTION OF RIM.

The WHIRLE DANCE BANJOS

SUPREMUS Models

THE "MONARCH DE LUXE" MODEL, Made with Patent Hollow Rim.

THIS instrument challenges the world for Tone, Workmanship, Magnificence and Price.

The Tone is manifestly superior, being full, clear, and brilliant, with carrying power and colour very distinguishable when played in ensemble with large bands.

SPECIFICATION.

The " MONARCH DE LUXE " Banjo is built with Satin Wood and Bahia Rosewood and Ebony, carefully seasoned and selected for colour, with embellishments in Mother-o'-Pearl and groups of hair lines, artistically and deftly inlaid; the carving to the shape of the neck being an exceptionally fine example of craftsmanship.

The polishing of all the WOODWORK is by the Cellulose treatment. It ensures a permanent lustre, hard, bright and enduring.

The HOLLOW RIM is constructed with an outside wall of metal and the inside wall of wood, the vellum resting on the tone ring of the outside wall; the tone ring, resting in turn on a series of supports, provides apertures through which the waves of sound are collected from immediately under the vellum. They are conducted through the hollow rim and join the waves of sound collected by the resonator, forming a complete circle of sound which is emitted through the same apertures around the resonator.

The TAILPIECE is hinged with a cover plate and provides for the independent tuning of each string.

The DOUBLE GEARED PEGS are of new design, made very light and strong. They ensure accurate tuning without slipping.

All METAL PARTS are polished and Chromium Plated.

PRICE EXACTLY AS ILLUSTRATION

£28 0 0

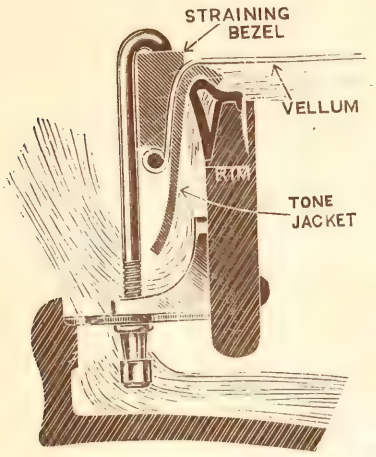
Same price for G 4 String and Tenor Banjo.

Suitable Case in Solid Leather, lined Velvet **£5 15 0.**

Plywood Case Covered Rexine, lined Velvet **£2 16 0.**

Both Cases fitted with Lock and Rustless Fittings.

THE Windsor WHIRLE DANCE BANJOS



SECTION OF RIM.

The WHIRLE DANCE BANJOS
SUPREMUS Models

THE "MONARCH" SUPREMUS MODEL WITH PATENT HOLLOW RIM

SPECIFICATION

The NECK is made of very old seasoned wood, and polished in its rich natural colour. The Ebony Fingerboard is artistically inlaid with pearl positions. The fine frets are deftly inlaid, avoiding all roughness of projecting edges. The delicate shaping of the Neck provides a slender width of Fingerboard with an ample width for the Peg Head, on which are fixed Windsor's Improved Geared Pinion Pegs which are absolutely Non-Slipping.

The HOLLOW RIM is constructed with an outside wall of metal and the inside wall of wood, the vellum resting on the tone ring of the outside wall, the tone ring resting in turn on a series of supports provides apertures through which the waves of sound are collected from immediately under the vellum. They are conducted through the hollow rim and join the waves of sound collected by the Resonator, forming a complete circle of sound which is emitted through the same apertures around the resonator.

The RESONATOR is made from Wood, artistically inlaid and Cellulose polished, is easily detachable, and of most ingenious design, comprising a large interior circle of metal, perforated with sound holes, the whole producing a wonderful tone, and grand spectacular effect.

The TAILPIECE is hinged with a cover plate, and provides for the independent tuning of each string.

The GEARED PEGS are made with double gears of new design, very light and strong.

All the METAL PARTS are Chromium Plated.

THE Windsor WHIRLE DANCE BANJOS

The WHIRLE DANCE BANJOS
SUPREMUS Models

THE "EMPEROR" SUPREMUS MODELS

SPECIFICATION

The NECK is made of very old seasoned wood, and polished in its rich natural colour. The Ebony Fingerboard is artistically inlaid with pearl positions and provided with Windsor's Improved Geared Pinion Pegs, which are absolutely Non-Slipping.

The RESONATOR is made from Wood, artistically inlaid and Cellulose Polished, is easily detachable, and of most ingenious design, comprising a large interior circle of metal, perforated with sound holes, the whole producing a wonderful tone and grand spectacular effect. The diameter of the Vellum is exactly 11in.

The RIM is made of Chrome-plated Brass, spun over wood, and provided with a metal interior tone ring.

The PYXE TAILPIECE provides for the independent tuning of each string. The Hinged cover forms a very efficient sleeve protector and is perfectly ridged.

The whole of the ART METAL WORK is Chromium-plated and Burnished. The wood work is finely Cellulose polished in its natural walnut colour.

These instruments are made for G Banjos, Four and Five strings (27½in. scale); Tenor Banjos, Four strings (23in. scale).

SUPREMUS Models

This Model can be supplied with Chrome Plated Fittings if desired, no extra.

Illustration of "PARAMOUNT" SUPREMUS Banjo.
Made in Windsor's Castle Works, Birmingham, England.

THE 'PARAMOUNT" SUPREMUS MODELS

SPECIFICATION

The NECK is made of very old seasoned wood, and polished in its rich natural colour. The Ebony Fingerboard is artistically inlaid with pearl positions (as illustration), and fitted with Windsor's Improved Geared Pinion Pegs, which are absolutely Non-Slipping.

The RIM is made of Nickel-plated Brass spun over wood foundation. Brackets drilled Bezel, and all fittings are heavily Nickel-plated. Provided with inside tone ring underneath the Vellum. The diameter of the Vellum is exactly 11in. This size has been found to produce the maximum tone.

The RESONATOR is made from Wood, artistically inlaid and Cellulose polished, is easily detachable, and of most ingenious design, comprising a large interior circle of metal, perforated with sound holes, the whole producing a wonderful tone and grand spectacular effect.

The PYXE COVERED TAILPIECE provides for the independent tuning of each string. The Hinged cover forms a very effective sleeve protector.

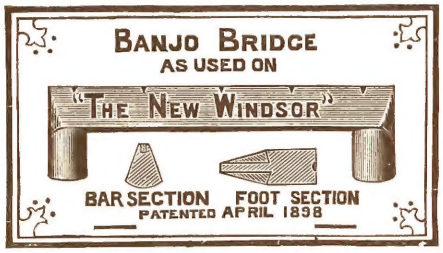
When Vellums are fitted to Banjos—The Instrument should be sent Carriage Paid, and will be returned as soon as possible. An additional charge of 3/- per instrument is made, and Banjo is returned in perfect playing order.

WINDSOR'S STOCK VELLUMS up to 44 inches diameter.

(If requiring same see Drum Section.)

NOTE.—Owing to Vellums being very sensitive to Temperature, we CANNOT GUARANTEE any Vellum.



SEE THIS LABEL ON EVERY BOX.
